Minister for Health (SHRI A. A. RAHIM):

In addition to the existing work of distributing quality cocoanut seedlings, undertaking manurial and cultural experiments in 3 Regional Research Stations, conducting cocoanut crop competition and rendering of advice to cocoanut cultivators, the following development schemes are also proposed to be carried out during the 2nd Five Year Plan period :

1. Layout of demonstration Plots—4 demonstration centres in cultivator's land will be started in each of the 28 important cocoanut growing taluks of the State.
2. Doubling the distribution of quality cocoanut seedlings. 1·75 lakhs of quality cocoanut seedlings will be distributed every year during the 2nd Five Year Plan period.
3. Large scale spraying to control the cocoanut diseases in the State. The scheme will operate in 22 taluks and will cover a target of 6 lakhs of sprayings every year.
